*Do not over-tighten screws during installation to avoid cracking the acrylic holders

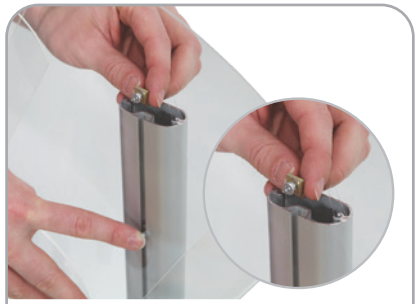
We are continually improving and modifying our product range and reserve the right to vary the specifications without prior notice. All dimensions and weights quoted are approximate and we accept no responsibility for variance. E&OE. See Graphic Templates for graphic bleed specifications.

Set-up

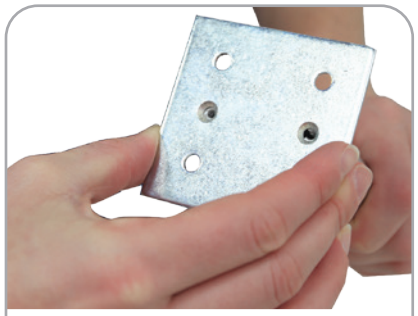
To connect pole to base, flip base over and screw together. 1

Repeat with second screw until post is secure to base. 2

Secure nuts to top and bottom holes on the holder. Loosly tighten screw during this step. 3



Once both square nuts are attached to holder, slide holder/nut into post groove at desired height and tighten screw. *Do not over tighten screws 4



Position square plate on top of post. Bottom acylic holder must already be installed before this step. 5

Secure plate to post with two screws. 6

Attach top acrylic holder to plate on the post with four screws. 7

Unit is complete. 8
